

Make Your Very Own Junie B. Valentine Mailbox!

Step 1: Gather all of your supplies!

1 pair of scissors

Tape

Crayons, colored pencils, markers

Step 2: Decorate all the pieces and panels. Write your name on Piece 4—it will be the front of your mailbox!

Step 3: With a parent's help, carefully cut each piece of your mailbox along the solid lines. Then, fold along the dotted lines. Don't forget the small slit near the edge of Piece 2—it will help keep your mailbox shut!

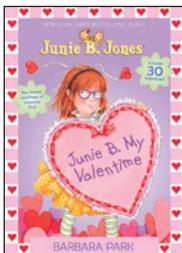

Step 4: Attach Piece 1 to Piece 2 by taking the short sides of Piece 2 and taping them to the outside of Piece 1. Piece 2 should be rounded like a half circle to create the body of your mailbox.

Step 5: Fit Piece 3 inside your mailbox on the end opposite from the slit on Piece 2. The fringelike flaps should fit inside the half circle that Piece 2 creates. Then, tape down the fringelike flaps and the bottom folded edge. This will be the back end of your mailbox.

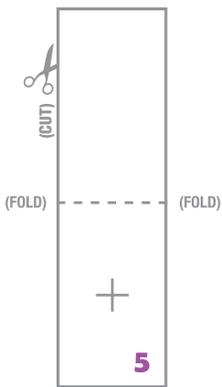

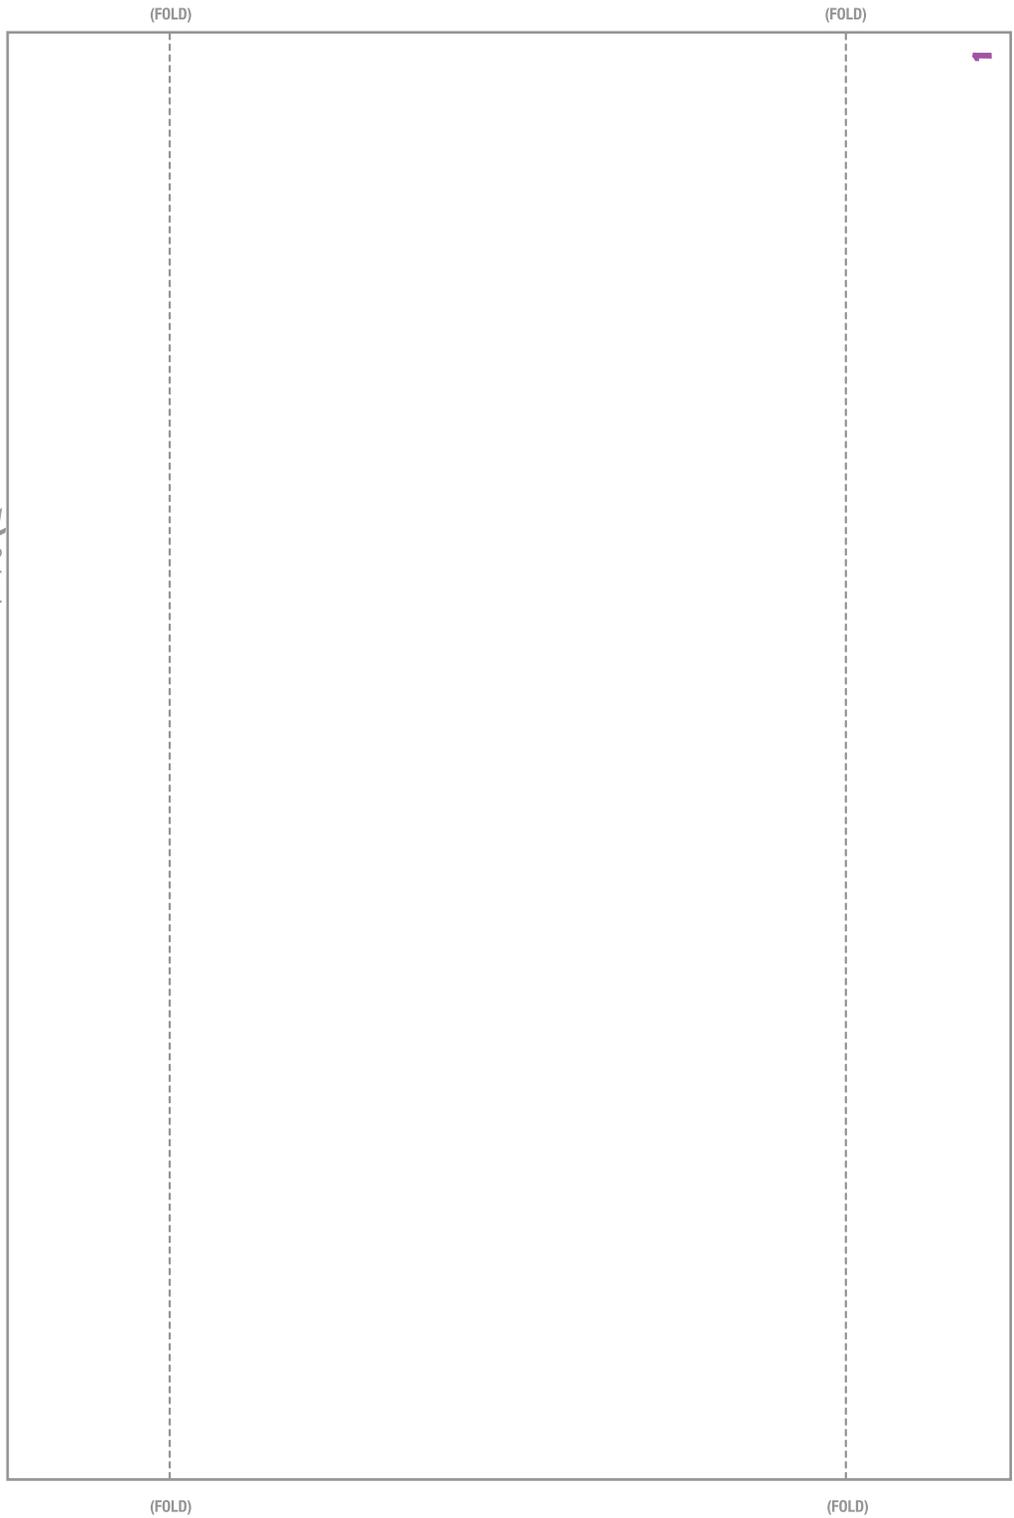

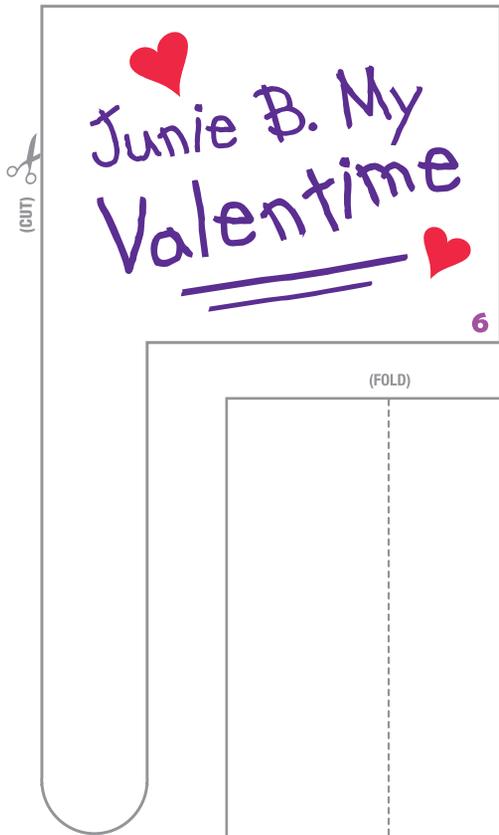

Step 6: Tape the bottom folded edge of Piece 4 onto Piece 1 in the other opening of your mailbox. Only tape the bottom so it can open and close. This is your mailbox door!

Step 7: Tape Piece 5 to the front of Piece 4 where you see the X. Insert the other end of Piece 5 into the slit you cut in Piece 2. **Voila!** Your mailbox is built and securely shut. Leave it open when you're expecting Valentines!

Step 8 (Optional): Piece 6 is a flag for your mailbox. You can tape it to the right side!
